

Alchem{ess} Natural Plant based Support Essences are a formulated blend of plant, mineral essences and Bach Flowers created by Homoeopath and Mentor, Tamara Gurney.

FurBaby Support Essence Formulas cover an extensive range of conditions for supporting our beloved pets at home using a natural, safe, no harm, complementary form of medicine. Just as natural plant & flower essences are safe for humans, it is equally safe and effective for all animals. Giving our pets a natural and safe complimentary alternative to health care and wellbeing.

There are no toxic, harmful side effects and can also be used along side Veterinary care.

"Natural medicine is an incredible natural ally in our health and wellbeing which should always extend to every member of the family, especially our deeply loved FurBabies"

- Administration of Liquid Formula for acute severe symptoms = Dilute 10 drops into glass of water and using a full syringe or eye dropper, dispense onto a treat and give immediately. Repeat this dose every 5-10 minutes until improvement.
- Administration of liquid formula for Chronic or not so severe symptoms = place 2 - 3 drops straight from bottle into water or food bowl for animal to drink/eat from 4 - 6 x day for as long as needed.
- Administration for animals who wont drink or eat with formula = place 4 - 5 drops straight from bottle onto skin at back of neck. Part hair and drop formula onto skin. Repeat for each dose.
- Store Formulas in a cool, dry place away from strong odours/camphor. Stored correctly they will keep for several years.
- Do not interchange eye droppers. Do not touch formula eye droppers to mouth. If so, run under boiling water to sterilise before putting back into bottle.
- Each formula contains 20% pure grape spirit alcohol as a preservative. If your pet cant or doesn't like the smell or taste, dilute into large glass of water to then administer from.
- Natural Plant based Formulas are safe for all species and ages. There are no toxic side effects.
- Life threatening accidents or illness please seek emergency vet clinic immediately.
